know the ultimate result may be proudly satisfactory to the British people.

Since the above was in type news by telegraph has been received announcing the award of the Arbitrators, which is afteen million dollars in gold, to be paid by Great Britain to the United States. The decision would seem to be very unsatisfactory to the British Commissioner, Sir Alex. Cockburn, who has refused to put his name to the award. We presume that will make little difference, however, for the British Gavernment having agreed to accept the verdict of the Court will bow with dignity to the award which has been given.

but amongst such items of grievance, as our readers are well aware, there will be

no claims on account of Fenian raids into Canada, this matter having been settled with the Canadian Government by Great

Britain consenting to advance by way of

losa the sum of two millions and a half aterling to the Canadian Government, to

aid the construction of their Transconti-nental Railroad. It will be seen from

the present incomplete position of these arbitration proceedings, that it is altogether prema'ure to allow our equanimity to be disturbed by any revelations that have been made, and that for aught we

ABSTRATION

AND THE CONTROL OF THE C with marked attention to his very excellent sermons. In connection with the church, is an adult bible class conducted with much interest; and a library of 500 volumes. This church is regularly organized with ruling clders, deacons and trustees, the leading gentlemes of the Island interesting themselves in the work of their young pastor. Sevaral baptisms and marriages are now taking place on the Island, and although San Juan is really a most desirable location for "Dominionites," the name shortly to be given to the residents.

D. SIDDALL,

Dentist of Cariboo, B. C.

SAN JUAN ISLAND, Sept. 4th, 1872.

Repudiating Stanley.

New York, August 28.—The efforts of several papers, in the past few days, to show that Stanley's discovery of Livingstone is a false pretence, are a general topic of discussion, and the opinion rapidly increases that the whole affair is a hoax. Important revelations concerning this matter are promised in a day or two, by several persons who knew Stapley and were familiar with his plans at the time of the expedition to Abyssinia and previous to his departure for Zanzibar. Scientific gentlemen discussed the subject last evening, and their opinion was unanimous that the story is false. Camparison of Livingstone's letter to Bennett with the private letter of Stanley, shows wonderful similarity of hand-writing, and several experts pronounce them identical. The discrepancies pointed out by the World and the Sua, are to be followed by others. The letter to Divingstone's brother in Canada has been sent for, and pages from it will be compared arithmic private letters for members of filled with descriptions of the riotous scenes during the recent elections for members of filled with descriptions of the riotous scenes during the recent elections for members of sunley's the recent elections for members of during the recent elections for members of the riotous scenes during the recent elections for members of the riotous scenes during the recent elections for members of the riotous scenes during the recent elections for members of the riotous scenes during the recent elections for members of the riotous scenes during the recent elections for members of the riotous scenes during the recent elections for members of the riotous scenes during the recent elections for members of the riotous scenes during the recent elections for members of the riotous scenes during the recent elections for members of the riotous scenes during the recent elections for members of the riotous scenes during the recent elections for members of the riotous scenes during the recent elections for members of the riotous scenes durin cies pointed out by are to be followed by others. The bivingstone's brother in Canada has been sent for, and pages from it will be compared with private letters known to be from Stanley's hand. A private letter from a member of the Royal Georaphical Society, London, says:

a Corroborating proofs are daily increasing that Stanley went to Africa as far as Uniayembe, where he learned of Livingstone's death, and where he learned of Livingstone's death, and several citizens were injured. The conduct of the police is condemned by the press. There is great indignation in the city.

in the genuineness of her neutrality during the war, and disproves the flagrant, unjust accusations of our unfriendly dealing. In the American case presented at Geneva, we cheerfully consent to pay the sum awarded, as tending to obviate a similar difficulty in future.

future.

As indignation meeting is to be held in this city on the 22nd, to protest against the course of the British Government towards the press of Ireland.
